

**EDUCATIONAL OBJECTIVES MATRIX
TO DIRECTOR OF ASSESSMENT BY MARCH 2010**

The Educational Objectives Matrix is completed to visually depict the extent to which student learning outcomes for academic programs are aligned with the university's institutional-level learning outcomes. The university's Educational Objectives state that each graduating student, regardless of degree program, will possess:

1. the ability to apply knowledge in a global and multicultural business environment
2. the ability to think critically, analyze, and synthesize information
3. knowledge of ethical standards and the sense of duty to apply them
4. a respect and appreciation for the value of diversity among people and ideas
5. effective research skills relevant to the discipline
6. effective communication skills to include listening, speaking and writing
7. the ability to use technologies necessary for success in their fields
8. the ability to adapt to a rapidly changing world
9. the ability to lead a group toward achievement of a common goal

In the form shown below, the university's Educational Objectives are listed in rows and learning outcomes for your program are indicated in the columns. For each Educational Objective, indicate which learning outcomes are aligned with it by placing an "x" in the appropriate cells. When returning your completed Educational Objectives Matrix to [Director of Assessment] at [email address] feel free to return the entire document.

Faculty who participated in the development or approval of this Educational Objectives Matrix:

I. STUDENT LEARNING OUTCOMES

Please list student learning outcomes numerically for the program. The numbers associated with the learning outcomes correspond to those shown in the column headings. Learning outcomes listed here should be identical to those shown in the Learning Assessment Plan, Program Review Plan, Program Review Report, shown at the university web site, etc.

II. EDUCATIONAL OBJECTIVES x STUDENT LEARNING OUTCOMES										
The university's Educational Objectives should be aligned with student learning outcomes for its academic programs. Please indicate which student learning outcomes are aligned with each Educational Objective by placing an "X" in the appropriate cell.										
Each graduating student will possess:	SLO1	SLO2	SLO3	SLO4	SLO5	SLO6	SLO7	SLO8	SLO9	SLO10
1. the ability to apply knowledge in a global and multicultural business environment										
2. the ability to think critically, analyze, and synthesize information										
3. knowledge of ethical standards and the sense of duty to apply them										
4. a respect and appreciation for the value of diversity among people and ideas										
5. effective research skills relevant to the discipline										
6. effective communication skills to include listening, speaking and writing										
7. the ability to use technologies necessary for success in their fields										
8. the ability to adapt to a rapidly changing world										
9. the ability to lead a group toward achievement of a common goal
